Innovative software development professional specializing in groundbreaking applications. Committed to delivering clean, error-free, and reliable code to fulfill current and future needs. Adept at staying abreast of software trends, proficient in various languages, frameworks, and programming tools.

EXPERIENCE

Associate Software Developer, Publicis Sapient | Marriott Bonvoy, May 2022-Current
Gurgaon, India

- Collaborated with the Homes and Villas by Marriott Bonvoy team, enhancing user experience and building features with Next.js 13 and React.js 18, backed by GraphQL, Express, and Elasticsearch.
- Spearheaded a groundbreaking search project, the first of its kind in the travel and hospitality industry, incorporating cutting-edge technologies, including gen AI, to revolutionize the search experience.
- Achieved a 20% improvement in search experience, positively impacting conversion rates.
- Received positive client feedback for optimizing frontend performance and overall platform experience.
- Successfully implemented Single Sign-On (SSO) integration with Marriott Bonvoy mobile app and Homes and Villas platforms, enhancing user experience and improving conversion rates on mobile apps.
- Succesfully revamped lookup reservations and curated collections page, achieving a remarkable 90% performance improvement while maintaining SEO friendliness.

Software Engineering Intern, Publicis sapient | Bang and olufsen, May 2021-July 2021
Gurgaon, India

- Developed predictive platform with React.js and Node.js for Bang and Olufsen, forecasting product demand in stock.
- Enabled cost-efficient stock management, preventing overstocking without revenue impact.
- Innovated data-driven solutions for optimal stock levels, positively impacting decision-making.
- Received positive feedback, contributing to Bang and Olufsen's success in stock and revenue optimization.
